Priority Statement

Foster a caring community that uses an equitable, regional and collaborative approach to encourage preventative measures, intervention services, and self-sufficiency while providing a social safety net for citizens.

Summary of Priority

Human Services unites public and private institutions (local, state and federal government, faith based, for profit and non-profit businesses) to encourage and support caring communities by assisting individuals and families to achieve self-sufficiency and healthy lives. A commitment to service populations to create accessibility to information and services, with a focus on prevention and intervention when necessary, while grounded in accountability, are the cornerstones of Human Services.

Human Services is committed to improving the quality of life of the service population by providing information about, and creating access to, fair, equitable and timely services. The focus is on prevention, reducing the need for future services, and intervention, and offering direct services when an individual or family is in need.

To address the priority statement, the team created a map around four causal factors:

Prevention services reduce the need for increased intervention.

Intervention services are directed at a person/family at the greatest time in need.

A caring community is a network of organizations and individuals that support a healthy and nurturing community.

Accessibility ensures everyone will have equal access to and knowledge of services.

Purchasing Strategies

1. We are seeking collaborative offers, when applicable, that maximize efficiencies and effectiveness through the sharing of knowledge, expertise and resources while preventing duplication of services.
2. Offers that promote healthy development and self-sufficiency that reduce the need for services.
3. Offers that demonstrate success based on research, proven results and accountability. Offeror must be able to adhere to necessary compliance and regulatory requirements and the highest ethical standards.
4. Offers that provide the greatest impact to persons in need by maximizing existing resources while looking for areas of opportunity that can be used in new and creative ways.

Statement of Request for Offers

We are seeking offers that will aid in prevention of a need for services. These would be offers that keep adults and youths from slipping into a state of need.

Specifically we are looking for offers that:

1. Promote physical and mental health such as programs that aid in early identification of a problem. Using strength-based programs that focus on improving positive behaviors. For example, school officials or community groups can be in the right position to identify youths who are at greatest risk and may be able to refer services.
2. Promote interpersonal development of youth that focuses on positive relationships with adults and peers i.e., school attachment, family attachment, community youth development. Engage and educate youth on pro-social behaviors that prevent issues such as teenage pregnancy, substance abuse and negative peer interactions.
3. Prevent poverty by addressing its root causes. We want children to have a good start in life by encouraging them to stay in school, get involved in extracurricular activities, and continue post high school education. We should illustrate the ill effects of teen pregnancy, violence and drugs and encourage positive behaviors. Through education and awareness we want to attempt to eliminate social, racial and cultural isolation. Weak family structures (deprivation of family love and support, family strife) or a history of family poverty (poor self-esteem, lowered expectations for education) are major contributors to a continuing cycle of poverty. Providing the tools needed, we hope to break the cycle. Finally, we want to provide support to those who may be dealing with a catastrophic life

event such as divorce, loss of a job, or a major medical incident which may lead to poverty.

4. Promote self-sufficiency by seeking regional and local solutions to support successful integration into society. Examples of programs include, but are not limited to, keeping people in their homes, job skills training, literacy and financial literacy, job placement, and/or providing regional transportation.

We are seeking offers that will successfully intervene for those who need help the most.

Specifically we are looking for offers that:

1. Assess early indications of needs and strengths through effective case management, which identifies and provides appropriate services and resources. Proper case management would include monitoring services and recognizing opportunities for collaboration with other agencies and localities. Services provided need to be delivered quickly to mitigate potential need for increased services.
2. Successful offers may emphasize family involvement using a holistic approach to include a multi-disciplinary team to provide a comprehensive assessment of needs and implementation of services. Offers may also provide comprehensive services to include a family centered approach addressing legal, mental, physical, employment and educational needs.
3. Work with a range of public and private agencies to help service populations integrate fully in society. Support integration by assisting individuals with skill training such as parenting skills, job training, personal budgeting and social skills. Encourage neighborhood and natural supports of those being reintegrated into the community to provide those a stable living environment. Ensure that citizens are psychologically prepared to be integrated into an accepting society.
4. Use different types of community supports to keep the family unit together. Successful offers may use supports of the community to reduce institutionalization. When applicable, clients should be able to receive services from providers while continuing to live in the community. Services should include opportunities for regional collaboration and provide for an effective aftercare plan.

We are seeking offers that will promote a caring community to get involved. This would include non-profits, faith-based, neighborhoods, civic groups or individual volunteers who want to make an impact in the welfare of our community.

Specifically we are looking for offers that:

1. Foster effective communication (neighbor to neighbor, landlord to renter) which empowers people to be productive members of society.

2. Develop initiatives that facilitate community involvement through volunteering and mentoring.
3. Foster positive adult relationships with youth that promote community attachment through supportive role models.

We are seeking offers that ensure everyone will have equal access to services and be well informed of what is available to them at their time of greatest need.

Specifically we are looking for offers that:

1. Inform citizens of prevention and intervention services such as 211 that allow them to place a call and learn about available options that best suit their needs. Possibly the creation of a Human Services/Education academy that allows citizens to get involved if they are so inclined.
2. Promote effective service delivery by eliminating gaps in services. Areas of need should be addressed throughout the entire spectrum of an individual or families' need. Collaboration is key so that multiple agencies can coordinate in an effort to be efficient. An example would be the use of the HMIS system which tracks homeless and how they are served throughout the region. We want offers that do not wastefully serve non-eligible or inappropriate requests for services.

Offer Executive Summary

Offer:	Social Services - Benefit Programs Division	Rank: 1
Dept:	Human Services	Factor: Accessibility to Services
Outcome:	Service Delivery	Existing

Executive Summary:

The Benefit Programs Division provides eligibility determinations and case management for public assistance programs such as food assistance (SNAP), medical assistance (Medicaid, Long Term Care, Auxiliary Grants), cash assistance (TANF, Refugee Cash Assistance, Title IV-E Foster Care), and energy assistance (Fuel, Cooling). These mandated benefits are primarily funded through state and federal funds and the Virginia Dept. of Social Services (VDSS) sets standards for accurate and timely application processing. Needy citizens are dependent on prompt and efficient delivery of these benefits to prevent potential need for increased services. In FY 2016, 31,235 recipients received \$31.5 million in SNAP benefits, 4,522 recipients received \$2.5 million in TANF benefits, and 32,356 recipients received \$190.5 million in Medicaid services. In turn, these benefits are expended in the local community for food, housing, healthcare and other basic needs.

Offer:	Social Services - Family Services Division	Rank: 2
Dept:	Human Services	Factor: Intervention
Outcome:	Family Involvement/Holistic Approach	Existing

Executive Summary:

The Division provides a wide variety of mandated and non-mandated core child welfare programs - prevention, child protective services, foster care and adoptions, and supportive child welfare services such as court services and child care. The Department also provides adult protective services and adult services programs. Prevention and protective services programs explore potential abuse and/or neglect situations and services are provided as needed to address the safety and well being of vulnerable children and adults. The goal of these services is to keep children and adults safely in their own homes. When the safety of a child cannot be reasonably assured, out of home care with a relative or foster care placement may be necessary. If reunification services are unsuccessful, a more permanent placement such as adoption is pursued. The Department also provides court ordered custody assessments and child care subsidies to low income families.

Offer Executive Summary

Offer:	Family Services - Foster Care Prevention Outstationed Position	Rank: 2
Dept:	Human Services	Factor: Intervention
Outcome:	Family Involvement/Holistic Approach	Supplemental

Executive Summary:

The Department of Social Services started a Community Based Prevention Services Program in 2009 and placed two Outstationed Prevention Specialists in offices at the Villages at Lincoln and Jamestown Place subsidized housing projects. The program has been funded through the Community Development and Block Grant (CDBG) and is part of a community based initiative designed to prevent child abuse, child neglect, and foster care placement. The program has been successful in identifying and engaging families with at risk children. For the past two years, funding for this program through the CDBG grant has been uncertain. In FY17, one of the outstationed positions was moved to the Social Services regular budget. Social Services has been notified that the CDBG will not fund the remaining position in FY18. This supplemental request is to move the remaining outstationed position to the Social Services regular budget.

Offer Executive Summary

Offer:	Social Services-Children's Services Act	Rank: 4
Dept:	Human Services	Factor: Intervention
Outcome:	Family Involvement/Holistic Approach	Existing

Executive Summary:

The Children's Services Act (CSA) is a law enacted in 1993 that establishes a single pool of state and local funds to purchase services for at-risk youth and their families. CSA directs each community to form collaborative, multidisciplinary teams composed of parents, youth, and representatives from public and private child-serving agencies. Case managers and in some circumstances, parents themselves, may bring a case to the team for creative and individualized case planning, which maximizes available resources and if needed, recommends the use of CSA funds to pay for services. The management team has final authority to approve funding and policies.

Executive Summary:

The Department's Employment Services Unit operates two programs, SNAPET and VIEW that assist recipients of public assistance with gaining employment and becoming self-sufficient. The Supplemental Nutrition Assistance Program Employment & Training (SNAPET) program offers employment and training services to SNAP (food stamp) recipients such as job search, community work experience, education, vocational training, and basic employment skills training. The Virginia Initiative for Employment not Welfare (VIEW) is a program that provides employment, education, and training opportunities to recipients of Temporary Assistance to Needy Families (TANF). VIEW is based on the conviction that all citizens deserve the opportunity to progress to self-sufficiency. VIEW offers Virginians living in poverty the opportunity to: obtain work experience and work skills needed for self-sufficiency; contribute to the self-sufficiency of their families; and achieve economic independence.

Executive Summary:

Outreach Detention provides intensive community supervision to juvenile offenders between the ages of 12-17. Enrolled juveniles are eligible for detention but instead are court ordered to the program so that they may remain in the custody of their parents with intensive supervision provided by Outreach Detention staff. Services include but are not limited to: intensive daily supervision to ensure compliance with all court directives, compliance with academic schedules and rules, counseling, crisis intervention, and GPS monitoring. The Outreach Detention program is a detention alternative designed to alleviate overcrowding in the detention center while ensuring public safety. The program allows clients to receive services that help prevent future behavioral issues, assist with positive integration into society and contribute to a caring community for the client and their family. Each day that youth are served in Outreach is one fewer day of paying for a detention bed.

Executive Summary:

Total Action for Progress (TAP) was incorporated in 1965 under the name Total Action Against Poverty, with the mission to help individuals and families achieve economic and personal independence through education, employment, affordable housing, and safe and healthy environments. TAP takes a holistic approach to services; believing that the effects of poverty are felt not just in one aspect or area of a person's life, but inter-related and affecting a client across all areas of his or her life. Clients can receive a wide array of services simultaneously. Services provided to citizens of the City of Roanoke stem from TAP's seven core programming components. Programs support a core of unique services including, but not limited to, remedial education, employment training and placement, school retention, college access, free tax preparation, technical assistance and loans to small businesses, services to ex-offenders, domestic violence services, Head Start, & Sabrina's Place.
