

## Projects

The following three sections provide an area to create a wish list of projects and document those that have been completed. The first section is for your wish list of projects. A blank area is provided to insert paint samples, magazine clippings, sketches, descriptions, and estimated costs of future improvements you have planned for your home. The second section is a table where completed projects can be recorded, including their location, description, and final cost. The third section provides space for before and after photographs so you can look back and see how far you and your home have come!
